

## THE MOST COMPREHENSIVE WARRANTY IN THE INDUSTRY

At SPOC, we build all of our drives for the oil field. This means they are designed, engineered and manufactured for decades of uninterrupted service in some of the most extreme conditions imaginable.

It is inevitable, though, that the heat, the cold, the dust and the storms will take a toll. In the oil field, the unthinkable does happen. Pumps fail. Motors burn out.

## PEACE OF MIND = PROTECTION FROM THE UNEXPECTED

We offer DriveShield on every drive we sell. No other extended warranty in the industry protects the investment you've made in your equipment more completely. You can buy extended-warranty protection on any drive within 12 months of the original purchase date.

DRIVESHIELD: THREE LEVELS OF COMPREHENSIVE COVERAGE	 <b>2-YEAR WARRANTY INCLUDING:</b>	 <b>5-YEAR WARRANTY INCLUDING:</b>	 <b>9-YEAR WARRANTY INCLUDING:</b>
24/7/365 (online and phone)	*	*	*
Field service (certified) techs on site to repair everything in box: voltage anomaly and lightning	*	*	*
2-day shipping for parts in inventory	*	1-day	1-day
1-day parts shipping: all parts guaranteed in inventory		*	*
Annual site inspection starting in 6th year			*
24/7 equipment health monitoring (based on cellular service availability)			*

## WHEN LIGHTNING STRIKES—AN INNOVATION IN PROTECTION

Watching a storm roll across the oil field, one thing is readily apparent. Your drives are connected to the power poles, the tallest thing on the plains. Lightning is a constant threat to man and machine.

With DriveShield, your equipment is covered—even from lightning strikes and other load anomalies. So when the storms come, you can relax knowing that you are protected even against the unthinkable.

No other manufacturer offers more comprehensive protection. Our warranty options include:

- 24/7 technical support
- One-call access, but a team of professionals to help
- Certified technicians, whether repairing your drive in our factory or on your site
- Original equipment replacement parts.

# LET THE STORMS COME

\* As you would expect, our attorneys insist on mentioning a few things our warranty does not cover. Things like product misapplication, vandalism, natural or facility disasters, floods, fire, acts of God, physical damage or shipping damage.
